

HustleCodeX: From Struggle to Digital Empire

Investor Summary 2026

The Vision

HustleCodeX is the world's first **Recovery-to-Tech** platform. We gamify the addiction recovery process by channeling the obsessive energy of “the hustle” into high-value coding skills and digital entrepreneurship. We don't just help people get sober; we help them build a future.

The Problem

- **Addiction Crisis:** 275 million people worldwide struggle with drug abuse.
- **Tech Talent Gap:** The global economy faces a shortage of 85 million tech workers by 2030.
- **Recovery Boredom:** Traditional recovery is often perceived as passive, boring, and isolating. Existing apps track days but don't build futures.

The Solution

A cyberpunk-themed RPG where real-world coding lessons are disguised as high-stakes missions.

- **Gamified Learning:** “Crack the code” to unlock the next story chapter.
- **AI Recovery Coach:** $\frac{24}{7}$ support from “The Mentor” (powered by Claude API).
- **Community DAO:** Users vote on the platform's evolution, fostering ownership.

Market Opportunity

- **EdTech Market:** \$404B by 2025.
- **mHealth Apps:** \$100B+ market.
- **Target Audience:** 25M+ individuals in recovery who are underemployed but digitally native.
